PROJECTS

FitNote

Java, Android, SQLite, UI/UX Design

Led the development of an intuitive Android application for fitness enthusiasts to track gym workouts, including reps and weight management. Designed a visually structured interface to help users monitor progress and stay motivated.

Smart DL Services

Python, Flask, HTML, CSS, JavaScript, SQLite, Leaflet.js

Developed a web-based platform to automate the driving license application process under a G2C model. Implemented features like geolocation-based RTO locator, chatbot support, dark mode, and real-time status tracking for enhanced user experience.
